Straight Stretch Of Highway Is Cause Of Accidents

Attempts to find some type of traffic safety marker that will help cut down accidents on U. S. Highway 27, south of South Bay, were being made this week by the county commission at the suggestion of the board's vice chairman, Paul Rardin, Canal Point.

Rardin, Monday, told the board that he was deeply concerned over the rising number of traffic accidents on a long 50-mile stretch of road between South Bay and Miami.

He asked that the county engineer contact the Federal Bureau of Public Roads and the National Safety Council to see if some type marker is available to break up the monotony of the long drive.

Rardin said motorists are apparently lulled into accidents on the road because of the long open stretch of highway which is bordered only by sawgrass and canals.

Civic Building To Get Good Location

The Pahokee City Council in regular session Monday night granted the use of the city-owned lot at the northeast corner of East Main Street and Lake Avenue in the heart of the downtown section as the site of the proposed new civic building which is to contain space for a public library, a Chamber of Commerce office and a recreation pavilion.

The decision to follow through with plans for the building was made at a recent joint meeting of city and chamber officers. Mrs. Mae Pope, chamber secretary, is sending letters this week to all civic groups in the area, asking each to name immediately a representative to serve on the Civic Building Committee. This committee, when organized, will decide on final plans for the building and make arrangements for its construction. It is hoped to get the building started in January and completed in about three months.

The Council turned down an application for spot rezoning of a lot on Bacon Point Road from residential to commercial.

It was announced Mayor Lewis Friend is issuing a proclamation designating Dec. 19-23 as Clean-up Week in Pahokee.

New street lights were authorized to be installed on Cypress Avenue and Barfield Highway and Annona and Banyan Avenues.

Pahokee PTA Signs 700 For A Record

The Pahokee Parent-Teacher Association has a membership of 700, the largest number in the history of the organization—43 more than last year's 667 members which set a new high that time, according to the report of Mrs. Joseph E. Thompson, membership chairman, at the December meeting held at the high school auditorium Monday night with President Doris Sasser presiding.

Mrs. Sasser announced it was decided at the recent meeting of the PTA executive board to form a liaison group to promote better understanding and closer cooperation between the PTA, the County School Board, the parents and the teachers. This liaison group is to function as a source of information to answer questions as to what can be done to improve our schools on a County level.

It is hoped this new committee can be organized immediately and start functioning in time to act as a steering group to assist with the PTA program on Jan. 9 when a panel including local school principals, teachers students, PTA officers and parents will answer questions pertaining to the child and his school.

Mr. Rardin had on a display a large chart showing how the County tax dollar is spent and spoke briefly on a number of subjects of interest to the Lions, such as the rapid growth of population, the new location for the Palm Beach Junior College in the John Prince Park, the continued expansion of agriculture in both the fields of vegetable growing and cattle raising and the never-ending fight for more and better roads in the Glades area and other sections of the County.

Cinematic Chatter

By Malcolm Millar

Hello everybody! In a town where the overnight rise to stardom is axiomatic (though seldom achieved) and everyone is in a frantic hurry for success, Peter Graves is a notable Hollywood exception. Graves is a man who believes in order, and doesn't want to be a star until he thinks he's ready for it. Peter Graves takes the sound (but in Hollywood the unusual) view that his career as an actor represents an investment. "Like my other investment," he says, "it must be built on a solid basis. Sure I want to be a star, but not before I'm ready for it. You can't reap dividends unless you're ready to spend a number of years building a firm foundation." A Midwesterner, Peter got his start in show business at an early age. While he was still in high school, he got a job as a radio announcer for station WSN in Minneapolis, and at the same time picked up additional extra change by playing the clarinet and saxophone with local dance bands. On graduation from high school he enlisted in the Air Force, and after his discharge entered the University of Minnesota. After graduating, he headed for Hollywood. Sixteen months spent largely in haunting studio casting departments, with no more than an occasional extra job forthcoming, sometimes made Peter wonder if starting at the bottom couldn't be overdone. But his lean days were about to end. Producer Frank Medford, seeing him perform on a television show (his first major role in TV), signed for pictures. Peter has continued to rise to the top ever since and has a fine career facing him. See you at the movies —Mal.

The Florida Development Commission is planning a statewide Florida Products Festival for January to promote the state's agricultural and manufactured products. Each municipality in the state will stage its own program.

New Tourist Spot Opens At Sarasota

SARASOTA — Sunshine Springs and Gardens, Sarasota's new multi-million-dollar attraction, unveiled its water ski show and exotic gardens publicly last week and heard Florida's attorney general, Richard Erwin, laud the project as a boon to all of Florida.

The occasion was the press preview of the grand opening which was held December 3. Also attending were State Representative Henry P. Bartholomew, city and county officials from Sarasota and Bradenton, and civic leaders from Florida's West Coast.

Edwin praised Leonard W. Tanner, creator of Sunshine Springs, for the vision and enterprise which carved the 100-acre attraction out of raw ranchland just 252 days after heavy equipment first moved onto the job. Lake Sarasota, the 400-acre body of water which provides the water stage for the attraction, also was mentioned as an addition to the state's water conservation plan.

Gasoline retailers are now receiving checks from the state comptroller under the recently enacted two per cent shrinkage and evaporation refund levy law.

FLORIDA POWER & LIGHT COMPANY

From where I sit...by Joe Marsh

New Light on an Old Subject

Mr. Evans from the Lighting Company gave an interesting talk at the Community Hall last night —on how farmers can cut electric bills. For those who missed it, here's a short recap.

Don't try to light up the cobwebs in the rafters. Use a reflector and a smaller bulb will probably do the job. Too many farmers use naked bulbs that waste 50% of the light.

Try using moveable projector bulbs that beam light the way a searchlight does. A couple of these "spots" will often give you

better illumination than a gang of juice-wasting overhead lamps.

From where I sit, it's amazing how often we misuse the things we have...like electricity. We also make a mistake if we misuse our right of personal choice —about which candidate to vote for, say, or whether beer or coffee makes the ideal mealtime drink —by trying to force our opinions on others. Respect for the other fellow's point of view should be our "guiding light."

TB Work Discussed For The Rotarians

Miss Ruth Shepard, executive director of the Palm Beach County Tuberculosis and Health Association, was guest speaker at the Thursday luncheon meeting of the Pahokee Rotary Club.

Introduced by John A. Dulany program chairman, the speaker explained how the Christmas seal money is spent, 81 per cent of each dollar going into the work of the Palm Beach County unit of the T&HA, 13 per cent to the State organization and six per cent to the national organization. She said it cost on an average of \$15,000 to cure a patient of the disease and approximately \$600,000,000 was spent in the United States last year for the detection, prevention and cure of TB. Men are twice as likely to get TB as women and the age group most susceptible is from 45 to 54 years, according to Miss Shepard.

It was announced the committee in charge of the Christmas seals sales in this area includes Curtis

Chase, chairman, Mrs. E. A. Jensen, Al Lavender and Stanleigh Murrell. Also that the American Legion Auxiliary is assisting with the annual drive by taking charge of the sales booth in front of the Pahokee postoffice.

Introduced as guests were Dr. Willard Fraser of Calumet, Mich., Miles Bryom, Belle Glade Rotarian, Mr. and Mrs. Curtis Chase and Miss Annette McIntosh, editor of the 1956 edition of the Pahokee High School year book, "Devils' Trail", who was the guest of Student Member Jim Seay.

NEW BETA MEMBERS

Initiated as new members of the Beta Club, national high school honorary society, at a recent meeting at Pahokee High School were Pat Crady, Neely Johnson, Evelyn Prince, Fred Blakey, Lory Ann Rockwell, Sandra Adams and Hunter Latham. The meeting was held in the high school patio and was followed by dancing.

"Mail Early" Plans Work Good This Year

Postmaster Osceola Upthegrove expressed his appreciation today for the fine response from individuals and business firms to his "Mail Early for Christmas" pleas. He went on to say that the period between now and December 25th is bound to be the heaviest of the year for all postal employees.

The terrific stream of out-going Christmas cards and gifts is now near full flood with a like torrent of incoming mail becoming greater

every day. In the next few days the Postmaster expects the Christmas mail load to hit its peak.

He said, "I know the time has passed to talk about mailing early. For the inevitable last-minute mailers, he suggests that they use air mail for every Christmas card or gift going out-of-town and by all means to get them in the mail today! Even one day's delay at this critical time may mean disappointment for a loved-one, on Christmas'.

There is still time for local deliveries but all Christmas cards should be sent first-class mail to

insure prompt delivery.

To take care of the last-minute rush, which always begins when the incoming Christmas mail is greatest, the Post Office will remain open from 8:00 A. M. until 6 P. M., including Saturday.

THEATRE PARTY

The management of the Prince Theatre entertained at the theatre Tuesday afternoon at the annual Christmas party and matinee for the children of the Pahokee and Canal Point Schools. In addition to seeing a free show each child received a Christmas treat.

Make your dream house come true! It's easy
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving *automatically*—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds. Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

If you want your interest as current income, ask your bank about Series H Bonds, which pay interest semi-annually by Treasury check.

Sheriff's Bureau Has Radio Network

TALLAHASSEE — The State Sheriff's Bureau announced plans last week for a \$22,000 radio network that will cover all sheriff's offices in Florida on the same frequency. They also appointed a committee to plan a school for law enforcement officers.

Don McLeod, bureau director, said Civil Defense officials agreed to put up half the cost of installing the radio network. It will be operated in conjunction with the 40-station teletype network recently opened which includes 17 sheriff's offices, the Sheriff's Bureau, Highway Patrol, State Prison and State Beverage Department.

Governor LeRoy Collins appointed Sheriffs Amos Hall of Broward County, George Watts of Washington and Broward Coker of Highlands as a committee to work with McLeod and Assistant Attorney General George Owen to plan a school for law officers to be held in Tallahassee, probably in January.
